

The library provides online resources, assistance with how to use the information and showcases Vietnam-only archives and collections.

To help with your study, teaching and research, the library provides an extensive collection of online and offline resources, workshops and assistance.

Online resources

RMIT has a large collection of online resources, including databases and e-journals, accessible by students, alumni and staff. Choose from over 600 databases, 130,000 e-journals, 500,000 ebooks and 130,000 streaming videos, audio, subject guides and more. All online resources will lead to the RMIT Australia library website, or the separate library guide platform.

Library databases

Search the library databases by subject, popularity and media type.

Google Scholar

Search Google Scholar for a range of scholarly resources, including journal articles, conference papers, theses, books, preprints, abstracts, and technical reports.

Library subject guides

The library hosts a wide variety of guides to help staff and students.

Research repository

Discover the RMIT Research Repository, an open access institutional repository managed by the University Library.

Statista

Access statistics and studies by market researchers, trade organizations, scientific publications, and government sources.

Open Educational Resources

Find free and editable resources published under open license

Video and audio collection

The Library has a growing collection of online videos covering instructional tutorials, Australian current affairs, documentaries and many more.

Not sure where to start?

Check your subject guide to see which databases we recommend for your area of study or ask our friendly Librarians for advice.
